September 27, 2004

**TO:** Washington State Board of Health

**FROM:** Janice Adair, Assistant Secretary  
Environmental Health

**SUBJECT: REQUEST FOR DELEGATION, CHAPTER 246-260 WAC, WATER RECREATION FACILITIES**

On July 14, 2004, the board adopted revisions to chapter 246-260 WAC, Water Recreation Facilities. The order for adoption was filed with the Washington State Code Reviser on September 1, 2004 and the rules will become effective on October 31, 2004. Staff from the Water Recreation Program recently found five typographical errors related to table references within the text:

- WAC 246-260-031: the two references to Table 031.1 should read Table 031.3;
- WAC 246-260-041: the two references to Table 041.2 should read Table 041.1; and
- WAC 246-260-061: the reference to Table 031.2 should read 031.4

These changes are not substantive and do not change the effect of the rule. The department recommends the rules be amended through the expedited rulemaking process under RCW 34.05.353, and requests the board consider delegating this process to the department. Expedited rulemaking allows an agency to adopt rules that meet certain criteria, without a public hearing as long as it does not receive public comment opposing the change. The department does not anticipate any opposition to these changes. A copy of RCW 34.05.353 is attached for your review.
